

proDAD: Short Cuts

1. Shortcuts

1.1. Global context-free Shortcuts

Works everywhere and overwrites context specified keys.

1.1.1. Toggle Playback: Ctrl+Space, Ctrl+Enter, MediaPlayerPause-Key

1.1.2. Start Playback: MediaPlayer-Key

1.1.3. Stop Playback: MediaStop-Key

1.1.4. Select prev. video: NumPad+8, MediaPrev-Key, BrowsePrevPage-Key

1.1.5. Select next video: NumPad+2, MediaNext-Key, BrowseNextPage-Key

1.1.6. Frame forward: NumPad+6

1.1.7. Frame backward: NumPad+4

1.1.8. Go to video start time/mark-in: NumPad+7

1.1.9. Go to video end time/mark-out: NumPad+1

1.1.10. Go to next timeline magnetic snap point: page-down or NumPad+3

1.1.11. Go to prev. timeline magnetic snap point: page-up or NumPad+9

1.2. Super Shortcuts

1.2.1. Super Shortcuts are context-free and works everywhere.

1.2.2. A Super Shortcut starts with: Ctrl#

Press and hold down the control-key. Press and release the # key. Don't release the control-key.

The follow key is the group-identifier. And after that the action-key follows.

The Shortcut ends by releasing the control-key.

1.2.2.1. A Super Shortcut can be activated by alternative keys:

1.2.2.1.1. Ctrl**Tab** ← Tabulator Key

1.2.2.1.2. Ctrl**#** ← # Key

1.2.2.2. Example: Zoom Timeline

Sequence: Ctrl#T+ or Ctrl#T-

- Press and hold down the control-key

- Press and release the # key

- Press and release the T key

- Press and release the + key ← Zoom-In will be executed

- Press and release the - key ← Zoom-Out will be executed

- Release the control-key to exit the Super Shortcut mode

1.2.2.3. Logitech Keyboards

<http://gaming.logitech.com/en-us/gaming-keyboards>
